## Slitter Rewinders and Sheeting Machines

We are experts in **designing slitter rewinders and sheeting machines** to convert a wide range of materials using **state-of-the-art** slitting and cutting methods. Our equipment lineup includes machines used to convert a **wide variety of materials** in a **wide variety of industries and applications**.

62" VTS Dual Turret Slitter Rewinder

Single Use Bag Line

## Custom Equipment

We are experienced in **designing and building** equipment that will assist in manufacturing products and materials used in **new processes** and **emerging technologies**.

## Contract Converting

Utilizing our own **Pinnacle-built** machines, our **Contract Converting Department** has the capability to convert your material effectively. Whether you require **1 roll or 100 rolls** converted, our converting department can handle your needs in a **timely manner**.

An ISO9001:2015 Certified Company

## *Wet/Dry Wipes Slitting and Perforating Machine*

# Wet/Dry Wipes Slitting and Perforating Machine

The **Versa-SPR (VSPR)** is designed specifically for slitting and perforating **non-wovens** used in canister-filled wet (or dry) **wipe applications**. This machine is capable of unwinding, **perforating, slitting, and rewinding** (to specific count) a **50" wide roll** of non-woven material at a speed of **400fpm**.

## Specifications:

- **Slitting Type(s):** Shear
- **Speed:** 400 fpm
- **Material:** Non-Wovens
- **Roll Width:** 50" unwind roll width
- **Max. Roll Weight:** 1200 lbs. (unwind), 20 lbs. (rewind)
- **Unwind Dia.:** Up to 60"
- **Rewind Dia.:** Up to 10" (coreless)
- **Rolls per minute:** Up to 60
- **Options:** Roll tabbing – adhesive or ultrasonic

## Features:

- 3 Spindle turret rewind system
- Continuous winding cycles with auto transfer at set perforation count
- Automatic roll unloading
- Glue tabbing or ultrasonic staking\*
- Edge guiding system
- Customizable perforation pattern
- Easy to change perforating blades
- Easy to access slitting blades
- Simple to use operation HMI
- Fully guarded and secured

\*Patent Pending

# Center Surface Slitter Rewinder

Our **Center Surface Slitter Rewinder** is capable of slitting master rolls of **medical nonwoven** material to **1" widths**. Fully guarded and secured, this machine was built to slit rolls up to **24" in diameter** at **1200 fpm**. The lifting unwind and guarding around the slitting and rewind sections of the machine provide the **safety** you require for your operators.

## Specifications:

- **Slitting Type(s):** Crush, Shear
- **Speed:** 1200 fpm
- **Material:** Medical Nonwoven
- **Roll Width:** Up to 94"
- **Max. Roll Weight:** 1000 lb. unwind / 200 lb rewind
- **Unwind Dia.:** Up to 60"
- **Rewind Dia.:** Up to 24"

## Features:

- Shaftless unwind
- Pneumatic floor pick up system
- Edge guiding system
- Allen Bradley®, Siemens® controls
- Auto tensioning system
- Easy to operate controls
- Fully guarded and secured.
- Sturdy welded steel construction
- Paint or powder coated frame

## *94" Non-Woven Turret Slitter Rewinder*

Scan the QR Code:  
See Photos or Video of this machine at:  
[PinnacleConverting.com](http://PinnacleConverting.com)

# 94" Non-Woven Turret Slitter Rewinder

This machine is built to slit materials such as **medical foams** and **non-wovens**. It is a **94" Simplex Turret Slitter Rewinder** that is designed for **non-stop/high output** production. Its design allows for material to be rewound adhesive-lessly **with or without cores** and the **turret** feature allows for **maximum run time**.

## Specifications:

- **Material:** Non-Wovens
- **Slitting Type(s):** Score
- **Speed:** 800 fpm
- **Roll Width:** 94"
- **Max. Roll Weight:** 1500 lb. unwind rolls
- **Unwind Dia.:** Up to 60"
- **Rewind Dia.:** Up to 24"

## Features:

- Trim winders
- Paint or powder coated frame
- Shaftless unwind
- Continuous rotary inline or intermittent cross web perforating
- Pneumatic master roll pick up system.
- Digital length counter with layon encoder
- Edge guiding system
- Fully guarded and secured
- Sturdy welded steel construction

## *240" (6m) Non-Woven Surface Slitter Rewinder*

Scan the QR Code:  
See Photos or Video of this machine at:  
[PinnacleConverting.com](http://PinnacleConverting.com)

# 240" (6m) Non-Woven Surface Slitter Rewinder

This machine is designed for slitting **large rolls of material** of up to **240" (6 meters)** in width. Using a **heavy duty** unwind system, this **slitter rewriter** is capable of slitting and rewinding rolls weighing up to **3,500 lbs.** with a **60" max dia.** at **800 fpm.**

## Specifications:

- *Material: Wovens, Non-Wovens, Geo-Textiles, Felts*
- *Slitting Type(s): Crush or Shear*
- *Speed: 800 fpm*
- *Roll Width: 240" (6 meters) unwind roll width*
- *Max. Roll Weight: 3,500 lb. (unwind and rewind)*
- *Unwind Dia.: Up to 60"*
- *Rewind Dia.: Up to 60"*

## Features:

- *Customized Allen Bradley® operator controls*
- *Pneumatic floor pick up system*
- *Shaftless unwind*
- *Edge guiding system*
- *Stack light for visual notifications*
- *Fully guarded and secured multiple features designed for operator safety*
- *Sturdy welded steel construction*
- *Digital length counter with layon encoder*
